STUDENT DECLARATION

"I hereby declare that this final year project report, submitted to University Malaysia Pahang as a partial fulfillment of the requirements for the degree of Bachelor of Civil Engineering. I also certify that the work described here is entirely my own except for excerpts and summaries whose sources are appropriately cited in the references."

*Specially dedicated to my beloved father, mother, brothers, sisters and all my
friends.*

ACKNOWLEDGEMENT

First and foremost, thanks to Allah S.W.T and His willingness, I had completed my final year project as requirement to graduate and acquire a bachelor degree in Civil Engineering form University Malaysia Pahang.

I would like to express my appreciation to many people who have contributed to successful completion of this project paper. Lots of thanks to Assoc. Prof. Ir. Adnan b. Zulkiple as my project supervisor who help a lot in coaching and give constructive ideas in completing this final year project. A special dedication to my beloved friend, Syarifah and Mohd Fauzi who had also help me a lot in succeeding this final project.

I also would like to thank all my course mates and friends who had participated by offering their helping making this project with successfully. Lot of experience and valuable knowledge that I gain during completing the project. All experience gleaned shall not I forget.

Last but no least, for all my beloved family members especially my father and mother who have contributed in giving me the moral support, encouragement and understanding in carrying out the project to such great degree. May Allah S.W.T reward all of them for their very kind help.

CHAPTER	TITLE	PAGE
	TITLE	i
	STUDENT DECLARATION	ii
	DEDICATION	iii
	ACKNOWLEDGEMENT	iv
	ABSTRACT	v
	TABLE OF CONTENT	vii
	LIST OF TABLES	x
	LIST OF FIGURES	xi
	LIST OF APPENDIX	xiv
1	INTRODUCTION	
	1.1 Introduction	1
	1.2 Objective	2
	1.3 Scope of study	2
	1.4 Problem statement	3
	1.5 Significant of Study	3
	1.6 Expected Outcome	3

2**LITERATURE REVIEW**

2.1 Introduction	4
2.2 Basic Representation	4
2.2.1 Node table	5
2.2.2 Link table	5
2.3 Layer –based approach	6
2.3.1 Classification and labeling	6
2.3.2 Direction	6
2.3.3 Turn penalties	6
2.4 Traffic prediction	7
2.5 Traffic models	7
2.6 Trip distribution	9
2.7 Origin Destination (OD) matrix	11

3**METHODOLOGY**

3.1 Introduction	13
3.2 Flow chart	14
3.3 Data collection	15
3.3.1 Planning system	15
3.3.2 Junction and links modeling	16
3.4 Road network modeling	18
3.5 OD matrix	22
3.6 Volume Delay Function	22
3.7 Trip distribution	23
3.8 Turn tables	23

4 RESULTS AND ANALYSIS

4.1 Introduction	25
4.2 Analysis	25
4.3 Network File Analysis	26
4.4 Base Network	28
4.5 Turns Table	37
4.6 OD table using gravity method	39

5 CONCLUSIONS AND RECOMMENDATIONS

5.1 Conclusions	43
5.2 Recommendations	44
